WSSCP “Practice Points” Learning Scenarios

To be discussed in Team/Group Sessions – 15-minute discussion

The WSSCP invite you, in team meetings or during group supervision, to discuss a child safeguarding issue. We encourage responses to be included in your team minutes and forwarded to the safeguarding lead within your organisation.

We hope that this is a way in which frontline staff across the city can explore some areas of learning without the need to attend formal training. It should also highlight areas of further learning.

We are happy to help with access to relevant learning materials

Consider the following question, and discuss.....

You get a call from a colleague from another agency that you have worked with in the past. They have just been allocated a family that they know you work with. The person enquires as to what your involvement with the family is.

What would you do to assist this young person?

Points for discussion:

How would you progress this matter?

What information would you share in relation to this family?

How do you record any information you share?

How do you share any information?

What would you do with this information?

If you are leading this discussion here is information for you to explore to assist with the discussion:

West Sussex Safeguarding Children Partnership
